

Environmental Policy

Nueco Group Limited and all of its staff are committed to the care of the environment, sustainable development. supporting the ecology and preventing pollution.

Our business and its commitments aim to minimise the use of materials and reduce omissions on land, air and water. We do this through the following:

- Assessing our supply chain to ensure best practices and environmental strategies are implemented throughout. This is carried out by our annual supplier approval check, management review meetings and regular involvement with our supply chain.
- Partnering with organisations in our supply chain who practice in sustainability.
- Continually researching environmental legislation to ensure our business operates and adheres to legislation.
- Site environmental plans are drawn up for all our jobs to ensure our impact on the environment is reduced to all aspect of our work: from the responsible sourcing of materials to the reduction of waste to landfill.
- Efficient and innovative design co-ordination with our clients and supply chain to deliver a service that looks at the whole life cycle impact on our work and how we can make a positive difference.
- Provide on-going education and training to our staff on environmental issues relevant to the business.
- Setting objectives and target to drive greater efficiency and reduce environmental impacts.

We continue to promote our commitment to protecting the environment and this is a thread which runs through the core of our business right through to site.

Our policy and the obligations and responsibilities required by the environmental management system have been communicated to all our employees and this policy is available upon request (digitally of course).

“All our company policies are reviewed quarterly to ensure that Nueco Group Limited remains knowledgeable, learned and abreast with the latest industry legislation. We outsource council from recognised industry professionals to ensure the highest standard of consultation is received. I personally communicate each policy to all of our members to ensure anyone representing Nueco Group Limited are well briefed, attentive and working safely.”
